STERLINK

Brand Guidelines

Beyond Ordinary

Brand Overview

STERLINK is a modern fashion and lifestyle brand that combines futuristic style, streetwear, and an elegant visual identity for the modern generation.

FOCUS	STYLE	AUDIANCE
Fashion	Futuristic	Gen Z
Lifestyle	Modern	Creative Youth
	Streetwear	Modern Community

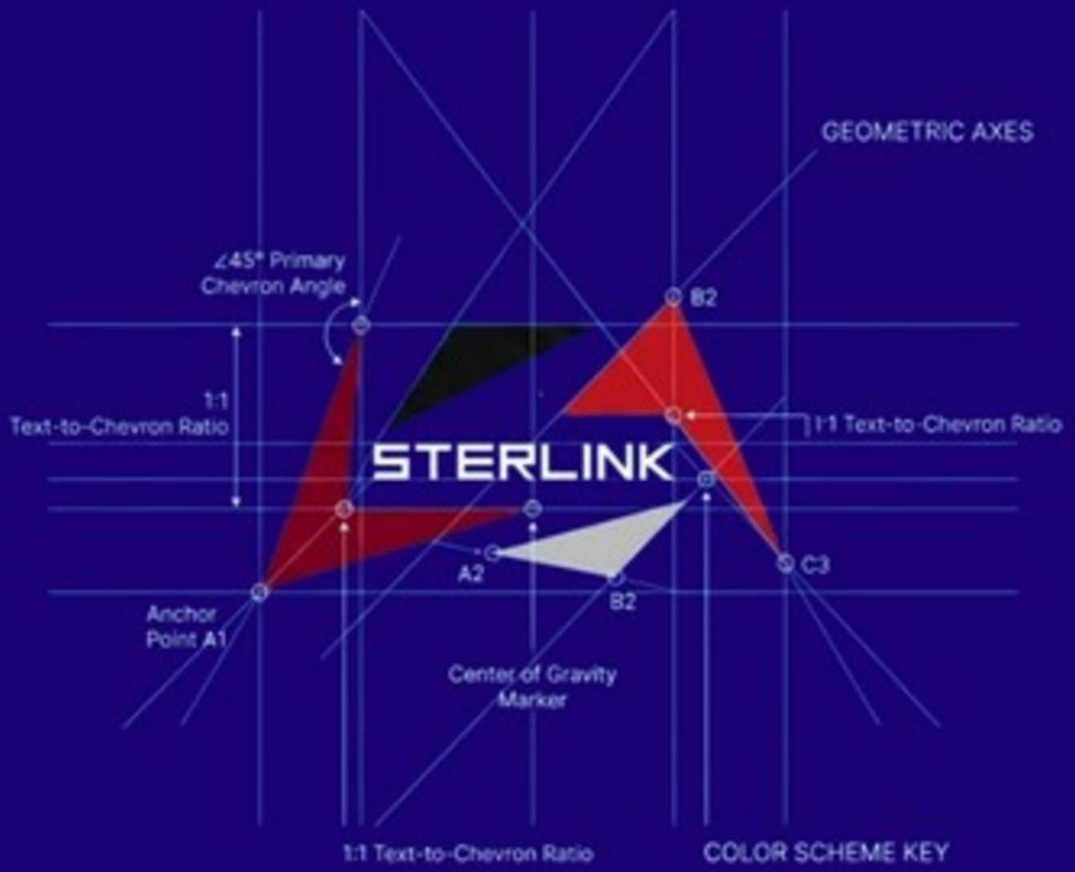

II. Logo

Mark Origins

Mark Construction

Horizontal Logo

The horizontal logo layout is designed for wider applications while maintaining clarity, balance, and strong brand visibility.

Horizontal Logo Usage

Optimized for wide-format applications with clear and balanced brand presentation.

Vertical Logo

A stacked logo composition designed to maintain balance, clarity, and strong brand recognition across vertical layouts.

Vertical Logo Usage

Suitable for vertical placements that require a compact and visually balanced brand presentation

Grey/White

The Grey/White version of the logo is used to ensure flexibility and readability across different backgrounds. It provides a neutral and minimal appearance, making it suitable for applications where the full-color logo is not appropriate.

Exclusion Zone

Defined by the height of the letter “X” in the logo.
This space must be kept clear on all sides.

Scale

The logo must always be scaled proportionally to maintain its original shape and visual balance. Stretching, compressing, or distorting the logo in any form is not allowed.

III. COLOR

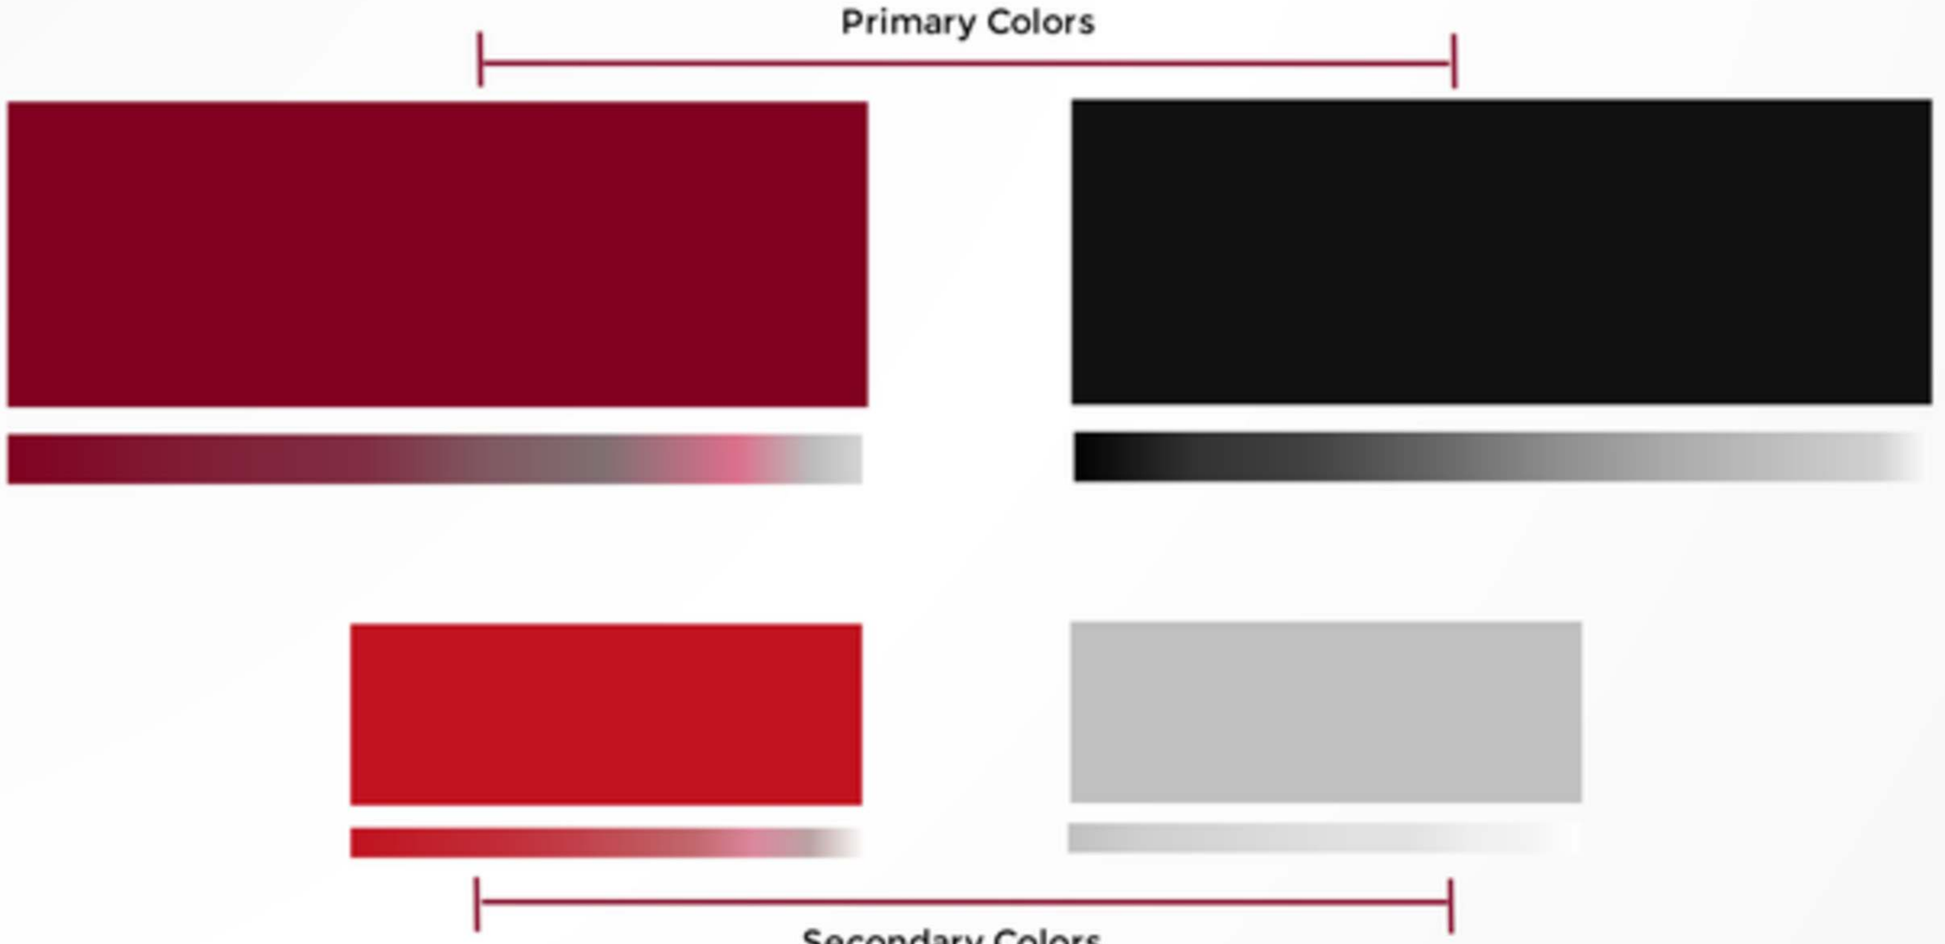

Brand Colors

The brand colors of Sterlink represent strength, energy, and a modern, professional identity that reflects the core values of the brand.

Color Pallete

The Sterlink color palette reflects strength, precision, and modern visual identity through a balanced combination of bold and neutral tones.

Color Pallete

The Sterlink color palette consists of all the colors used across the brand, including primary, secondary, support, and background colors. These colors are designed to create a consistent, balanced, and visually recognizable identity.

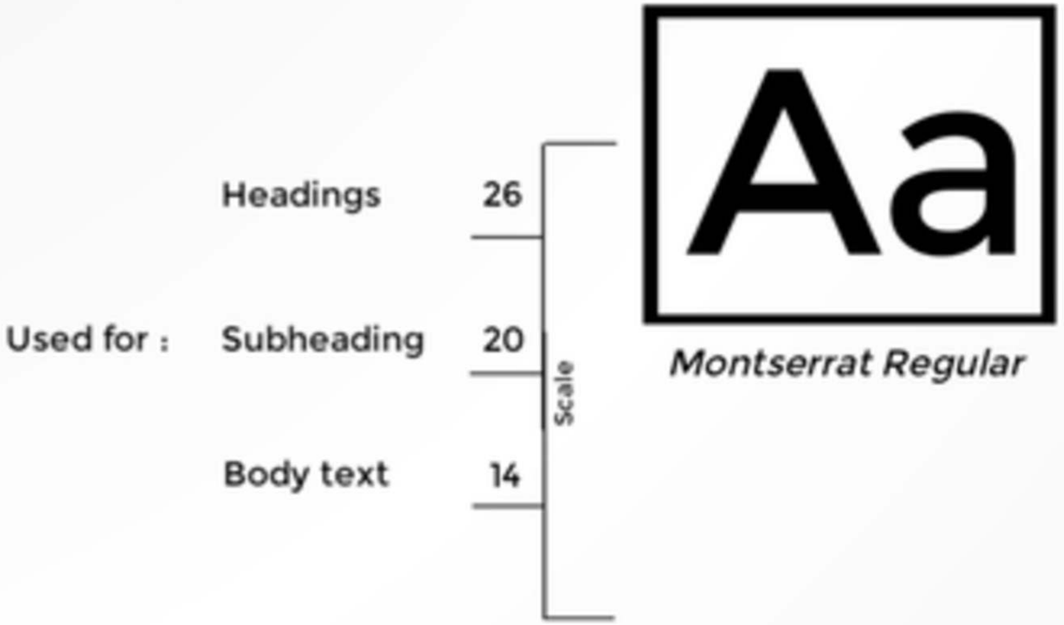

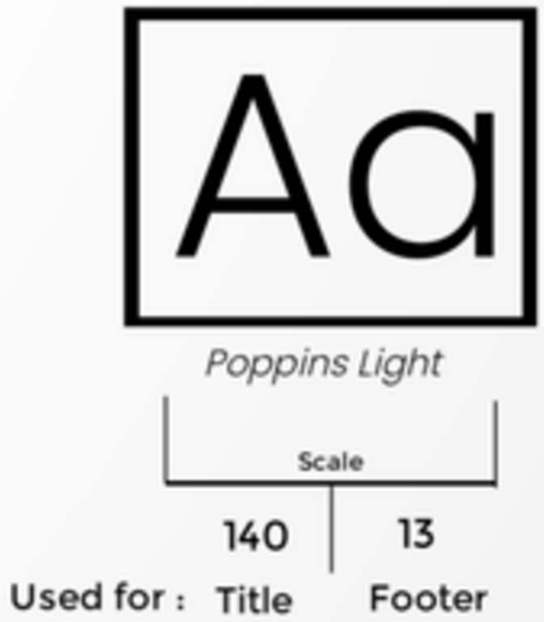

IV. Typografi

Typografi

Sterlink uses a clean and modern font system to maintain consistency and readability.
